Give Nature a Lift.

Assist our much of nature. They trifle with their health who neglect to regulate their stomach and bowels when they become disordered. Every day experience in families, in travelling, and in camp, proves that HOSTETTER'S STOMACH BITTERS can be relied upon to correct irregularities of the digestive organs, the torpidity of the liver, and the inactivity of the bowels. Let the artificial laws with which we live be ever so much disregarded, this great vegetable corrective will enable the system to endure the shock without injury. Appetite, sleep, and regularity of habit will be restored by its use, and long-continued health will be the result. Sold by druggists and dealers generally.
